

# Oak City IT

Reliable Secure Productive Tech

## Purpose and Capability

Oak City IT believes all organizations deserve great tech solutions. To provide great tech we proactively manage clients' systems to ensure reliability, security, and increased productivity. We partner with you every step of the way as we design, install, upgrade, secure, train, decommission, support, and configure all your tech.

We are excited to simplify the most complex tech into actionable summaries that even the busiest CEO can quickly understand.

## Ready to Talk Tech?

- Own or manage a small B2B service business? (12-150 employees)
- Passed the startup phase and into the growth phase? (We're happy to talk at any stage)
- In a Professional Services industry? Insurance, Accounting, Legal, Software Developers, Engineering, Healthcare
- Manage a franchise but not everything provided by your corporate HQ?
- Want to free up valuable resources like money and time to focus on what you do best?

## Technologies We Manage

- Computers (Windows, Mac, Linux) with Tech Support
- Mobile Devices (iOS, iPads, Android Devices)
- Data and Systems Backups
- Email and Productivity Software (Microsoft 365, Google Workspaces)
- Cloud Systems (AWS, Microsoft Azure, etc.)
- Cabling and Installations
- Password Management and Access Controls
- Digital Security
- Web Sites and Apps
- Networks (Wi-Fi, Wired, Routers, Firewalls, Switches)
- Servers
- Systems integrations (Calendar, Email, Marketing)
- Virtual Private Networks (VPNs) for secure Internet
- Customer Relationship Management (CRM)

## Accolades

- ISC2 Certified in Cybersecurity
- We employ patience and discernment while seeking first to understand your needs in order to address root problems, giving you lasting solutions
